## Beast 1333 - Black Anubis (Higher Learning) lyrics

Ascended Master Leaching  
Sixth initiation  
Thirteen ba\*tards Reaching  
Universal all Pervading presence of Life  
As I'm teaching  
Rap Mahatma  
Maharaja Yogi  
Meta rap for Fatwa  
Knowledge of the Universe  
In tiny body Credo Mutwa  
Rapping Shaman  
Absolutely nothing's what we have in Common  
Paleolithic pre-religious practices  
I teach through Rhyming  
Held the Balance  
Thirteen thousand days as i sat in Silence  
Psycopompic Angels  
Whose job is to guide us free from Violence  
BLACK ANUBIS  
Turn the other cheek to k\*\* a kissing Judas  
Funny that we all chose Clothes  
Instead of all us Nudist  
Brain to shame Us  
Half the lames remain and entertained by Famous  
People just like them  
But the difference is money out the an\*s  
Bio-Idols  
Most the planets populations suicidal  
Sacrificing children to Fire  
The Ritualistics vital  
Kneel to Molech  
Organized religions all a bunch of Bullocks  
h\*mos\*\*ual clergy

The Priests that are chugging wine in Gullugs  
HIGHER LEARNING  
Fire climbing higher  
When the buds are Burning  
Exodus of half a billion  
Running human fleshy Vermin  
Leave us Squealing  
Worshiping the Golden Calf's  
The fakest Feeling  
Alpha Draconus is on Us  
Their soldiers faces Peeling  
Clock is Lunar  
Purely physical afflictions happened Sooner  
Rare and astonishing Geniuses  
Brains and veins Computers  
Interlinking, Heart is beating  
Muscles twitching, eyes are Blinking  
Trying to keep a step ahead away  
From what these guys are Thinking

Solar Mantis  
30,000 Leagues at Least  
To Reach Atlantis  
Mermen of Warrior Cla\*\*  
With their beards as long as Santas  
Blast to fight us  
Songs will make us Viral as Conjunctivitis  
d\*\*h will come to those  
Who chose to take a stand you can't Divide us  
Murder Persians  
Plato's prize pupils name was Aristotle  
Submerged civilizations that fit inside a Bottle  
Wicked Beast Man  
Roam the city in the Eastland  
Sir Francis Bacon  
They faking it more than C-Span  
Faking it more than she can  
Arching it at the Vertebrae  
I speak the Truth  
Condensing it tons of It  
Some have Heard of Me  
Government want to murder Me

Government want to see me Got  
Puff steamy Pot  
Demon Barber k\*\*er  
Like i'm Sweeney Todd  
Connect to Dark  
And in the vastness of it all's a single Spark  
Our Moods & Behaviors and Movements  
Is guided by the Heart  
It gently weeps  
So many cases of Paralysis of Sleep  
Inducing hypnosis, He post as he host the Most Unique  
They often Choose  
The ones with winning attitudes that never Lose  
They look for clues  
Sloppy in the Slippy, Slappy, Sloshy, Slew  
Misconstrued  
American Surveillance apparatus Feud  
Chanting and Nude  
Paranormal Metaphysicalist Dude  
My Flow Supreme  
And engineered to yank you out your Waking Dream  
Invisible Magnetic Force  
To lure me closer to 13  
There's 33 Vertebrae that line the spine inside of Me  
The time has come i bid you Adieu  
Come and say Goodbye to Me
